## TRACKING COLLARS

At the April 1998 meeting, the American Kennel Club board of Directors approved the use of tracking collars at Pointing Breed Field Trials; effective date September 1, 1998. Their use will be permitted at this trial, in all stakes.

### The rules regarding using a tracking collar at an AKC Licensed or sanctioned event are:

Only AKC approved collars may be used. Model numbers will change as technology changes and improved models become available. The models currently approved by the AKC for use at AKC events are: Wildlife Materials #2850, 2300 & 3850; LL Electronics LD#3 & CS#1; Tracker FTV466 & Tracker FTL 998

The radio transmitter placed on the dog is to weigh no more than five (5) ounces.

If a handler elects to use the transmitting collar on his or her dog, only one other identification type collar is permitted to be on the dog. The tracking collar shall remain on the dog during the entire heat; if a handler elects to remove the tracking collar, that dog shall be considered out of judgment.

The handheld receiver shall be kept in the possession of the judges or the marshal only. The handheld locating receiver can only be used after the dog is determined to be out of judgment. The use of the tracking collar is elective and for no reason should the running of a stake be held up due to the lack of available equipment.

Each club shall provide the judges with a copy of this page concerning the use of tracking collars at the AKC Pointing Breed Field Trials.

Any person using a locating receiver to locate a dog currently in judgment and prior to official authorization of its use by one of the judges, shall disqualify the dog in that stake and the offenders shall be disqualified from that field trial.

Special Training Collars used to control and train dogs including but not limited to collars with prongs, electronic collars used with transmitters, muzzles and head collars may not be used on dogs at AKC events, except as allowed in the AKC Rules, Regulations, and Policies.
