A Master title in Agility compiles of ten (**10**) perfect runs in the Excellent B class—the highest level of AKC Agility. Kris is the *first and only* Saint Bernard to obtain AKC's Master title(s). One can earn a the Master title in Standard and/or Jumpers With Weaves.

After one earns a Master title they can continue to compete for **10** more perfect runs and add a number behind the title, i.e. MXP**2** etc.

To date Kris has nine (**9**) Master titles to his name which equals **90** perfect runs in the Excellent B classes.

He has **5** Master Standard titles and **4** Master Jumpers With Weaves titles. His complete record may be viewed in the Saint Bernard National Archives' Records room.

Kris gets a Good Luck Kiss before his run

The Teeter-Totter can be a real balancing act!

Up the A-Frame.....and down the A-Frame

Pretty narrow plank for the BIG guy

Ears for wings!

Do these weave poles ever end?

I see the finish line just ahead, YEA, I did it!

I have uploaded another history-making video run of Saint Bernard Kris in agility. This run is on YouTube and is from the AKC Agility *EXCELLENT* F.A.S.T. class—the TOP level of competition in the F.A.S.T. classes.

Here is the link: <http://www.youtube.com/watch?v=oAY57fhpshk>

A little information about this difficult class of Agility...

In the AKC Agility **Fifteen And Send Time** (F.A.S.T.) classes the handler makes up their own course from the **fifteen** obstacles in the ring. Each obstacle has a point value. At the Excellent level you must obtain at least 60 points to qualify. Plus, there is a **send** zone (within an area marked with tape on the ground) into which the handler is not to cross. The dog is sent by direction from the handler, who is 15-20 feet away from the obstacles in the send zone. The dog is to do the obstacles in the correct order. The handler's course, plus the send zone, must be completed within a 35-second **time** frame.

In this video and course the first obstacle in the send zone is the tunnel (behind the A-frame and a little out of view in this video). I am 20 feet back from the entrance to the tunnel and direct Kris to head in on his own to the "correct" tunnel entrance. Kris goes to the tunnel (correct entrance, too) and then out of the tunnel to a jump, then turns and comes back over the other jump. This sequence is called a serpentine as the jumps and tunnel are in a row and the dog weaves from one to the next. This is a difficult task for a Saint as the angles are tight and, unless they go deep to make the jump, the bars can get knocked off which equals a non-qualifying run.

Kris was pumped with visions of cheese burgers in his head if he did a good job on this course. Dogs just LOVE this sport as it is a natural for dogs that like to run and jump. Kris is three months away from his *ninth* birthday in this video and you can see how this sport has maintained his superb physical condition and attitude.

Some of the F.A.S.T. courses work well and others do not, depending on your dog or even the breed of dog! We have had many courses where we did not fare well. The send zone is the most difficult part (getting the dog to work *correctly* away from you), plus getting around the ring to the obstacles needed to obtain 60 points in 35 seconds. Not an easy task for our large breed.

Keep in mind, when tunnels are on a course they are not speed obstacles for a Saint Bernard as a 30-inch dog going through a 20-foot tunnel that is only 24-inches in diameter takes a bit of time! The allotted 35 seconds goes REALLY fast!

Kris now is retired from agility amassing **18 agility titles** and all in one venue--the AKC (an **all-time record for our breed**). Whew, what a fun ride it was and we are so proud and fortunate to have shown others what OUR breed can do. Our proudest moment was Kris being featured on national television during the AKC Agility Invitational! The folks in this sport have been so very supportive as I steered my oil tanker of a dog through the sometimes tight courses!
