The National Archive's Performance Newsletters

The inaugural issues of the National Archives Performance Periodicals was in **October 2002**.

When a new monthly issue is first published it appears in "**The Latest Archive Updates and News**" link in the Saint Bernard National Archives **Newsroom** at:
<http://clubs.akc.org/saints/Archives/Welcome.htm>.

Past issues (for the current calendar year) are categorized by topic (Performance, Agility, Obedience, Tracking, Draft, Weight Pull) and are available in the Archive **Newsroom** for further viewing on the web.

After a calendar year has passed, the older issues are removed from the site (to save web space) and stored in the Saint Bernard National Archives in Seattle, Washington. These older issues are available for the asking and will be e-mailed upon request. Please **state the year wanted and topic (i.e. Agility, Obedience, Performance, Rally, Tracking, Draft or Weight Pull)**--the first year is **2002 (Rally newsletters started in 2006)**.

Older issues are historical time capsules that recorded our breed's performance milestones and accomplishments, plus interesting related articles. Also, many of the newsletters have stories and photos of the dogs in the news. Collect all the years and subjects, file away in your computer, and have them to reflect back on in the future. **Free for the asking!**

Enjoy,

John Cox, Archivist
